Retrospective

i Add your Start doing, Stop doing, and Keep doing items to the table below. We'll use these to talk about how we can improve our process going forward.

Start doing	Stop doing	Keep doing
Increase GitHub commits, commit at least twice per day so that each person has minimum of 10 commits per week	setting unrealistic goals or overburdening oneself	Enhancing code structure and commenting as much as possible for easier understanding
More Literature Research needed for each feature	Not accepting enough GitHub PR	Interviewing
Quicker response to mentor feedback	Setting goals beyond agreed scope	Reviewing individual sections of committed code to Github, Team communication
Get alignment with mentors on project plan. Deployment test plans Look at PR requests regularly	Letting PR requests go unreviewed after a day. Having mentors confused.	Refactoring code. Researching improvements.
do minimum of 2 commits in GitHub per day delete branched after merge	leaving branch open after merging create branch as per the story needs and commit work related to the same	good efforts and consistent result stick to plans and process to be collaborative on documentation and presentation
